

Senior Design Engineer

OR Consulting is a multi-award-winning building services consultancy, focused on the engineering of low carbon buildings. We specialise in developing tailored design strategies for unique projects, particularly within the cultural and heritage, residential, education and commercial sectors.

If you have a passion for sustainable engineering, are keen to develop technically and commercially and are committed to personal achievement and success, then joining OR could be for you.

OR Consulting is an established, growing practice with 15 employees located within Central London and a small office in Cardiff. We are a friendly, supportive team providing holistic sustainable engineering solutions in mechanical, electrical and public health building services.

We are currently seeking Senior Mechanical and Electrical Engineers who are keen to develop technically and commercially within a rich, multi-disciplinary environment.

Candidates shall be able to:

- Demonstrate a passion for building services engineering;
- Demonstrate experience of delivering multi-disciplinary projects from inception to completion.
- Identify commercial drivers for the design.
- Multi task in a lively and challenging environment.
- Lead projects as part of a close knit team.
- Deliver fully integrated design solutions.
- Take the lead in coordinating the work of multiple disciplines
- Take a hands-on approach to the delivery of projects;
- Independently interrogate design challenges and deliver comprehensive design solutions;
- Communicate effectively with the Client and team members.
- Develop and maintain key Client, Architect and design/construction team relationships.
- Tailor work to the requirements of the RIBA project stage.

Candidates must be:

- An experienced engineer in their discipline (either chartered or working towards chartership).
- A good communicator.
- Creative, Adaptable, Approachable, & Dynamic.
- Customer focused;
- Alive to new project opportunities in course of their work.
- Committed to CPD and self-learning / development.
- Committed to the management and mentoring of other engineers.
- Experienced with an array of design software.
